MEMORANDUM FOR THE RECORD

STATINTL FROM: [REDACTED] O-AI/DDA

SUBJECT: Report of NCMS Conference, 20-22 July

STATINTL [REDACTED] and I attended the 12th Annual National Classification Management Conference in San Diego on 20-22 July 1976. Gene was invited as the luncheon speaker for Wednesday, 21 July, and did an excellent job. After his discussion of the impact of FOI and Privacy legislation on CIA, several people approached him to ask where they could sign up to work for the Agency.

My participation at the Conference consisted of trying to soak up as much information as possible about the security classification programs of other agencies in the hope that others might have developed some materials which we could use. Unfortunately, the thrust of the Conference was aimed at DOD/contractor relationships and the classification problems encountered therein. The split of attendance between Government and industry was 40:60. Their overriding concern seemed to be the guidelines used for the classification of DOD contracts, and the handling of information between contracting parties.

The education and training session in which I was particularly interested was a disappointment. It seems that DOD classifies by project or contract and, in turn, classifies all correspondence related to a project at the same level. This system removes all subjectivity from the decision making process and creates a tremendous derivative problem. The concept of the individuality of a document does not apply; each document is not classified on its own merit. Such a simplistic approach appears to violate the intent of E.O. 11652, but would certainly solve some of our classification problems. If we took the OGC intelligence sources and

methods listing and specified a level of classification for each item, we could publish definition criteria and guidelines for classification like other agencies have done.

Meeting my counterparts and associates in other agencies was the most worthwhile point of the Conference. Alan Thompson from the National Archives extended an invitation for me to visit their facilities and get a briefing on their declassification review programs now going on. I also met several people from NSA's security classification staff who were very open in discussing their programs. Bob Wells, Executive Director of the ICRC, attended the Conference and spoke with Gene and I about his plans for annual reviews of classification programs. He now has a staff of four or five analysts who will visit agencies to assist in the development of programs. The goodwill generated from such associations is probably worth more than any single formal presentation put on at these conferences.

The attached brochure gives you a feel for the tone and scope of the Conference. Unfortunately, it was not all I had hoped it would be.

**TWELFTH NATIONAL SEMINAR
NATIONAL CLASSIFICATION
MANAGEMENT SOCIETY**

JULY 20, 21, 22, 1976

SAN DIEGO, CALIFORNIA

**NATIONAL
CLASSIFICATION
MANAGEMENT SOCIETY**

**Classification Management
A Bridge To
National Security**

**Twelfth National Seminar
July 20, 21, 22, 1976
Sheraton Harbor Island Hotel
San Diego, California**

IN APPRECIATION

The Seminar Committee and the National Classification Management Society would like to take this opportunity to extend our appreciation for the following enterprises that have done so much to contribute to the success of our Seminar:

San Diego Convention and Visitors Bureau -

Mrs. Maxine Jones

California Plant Protection -

Mr. Tom Wathen

Sheraton Harbor Island Hotel -

The Staff

We would also like to thank the San Diego Convention and Visitors Bureau for their assistance and help with registration, messages, etc.

WELCOME REGISTRANTS

The Board of Directors of the National Classification Management Society, the Southern California Chapter and the Seminar Committee welcome you to this, our 12th National Seminar.

As we celebrate our country's 200th year it would perhaps be wise to reflect and remember that the freedom of expression guaranteed by the 1st Amendment of the Constitution is what really makes this Nation strong. Our program this year is designed to offer a broad spectrum of opinion on the merit of the current classification system, some insight into future revisions of Executive Order 11652, and ample opportunity for questions and answers to the problems we face daily in fulfilling our responsibilities to and within government.

This is your Seminar. Its value can only be measured by the progress you make through increased knowledge, expanded exposure and the warmth of new friendships. To this end we encourage your fullest participation in all Seminar activities.

We hope during non-Seminar periods you will avail yourself of the opportunity to become familiar with San Diego and the many attractions which it offers. We of the Seminar Committee are available to assist you during your stay.

Very truly yours,

A handwritten signature in cursive script that reads "George L. Chelius".

General Chairman

SEMINAR CREDITS

The Board of Directors, on behalf of the members extends to the Seminar Committee and the Companies they represent, its appreciation for the many hours devoted to preparation of this seminar.

Chairman:

George Chelius

- 12:00-1:45 LUNCHEON
Mr. Philip P. Kerby, Editorial Writer, Los Angeles Times. Recent Winner of the Pulitzer Prize for a series of editorials on Secrecy in Government.
- 2:00 - FINAL REMARKS —
ADJOURNMENT.

Robert Behr

Mr. Behr is employed as the Foreign Disclosure Policy Officer for Air Force System Command, ASD, Wright Patterson AF Base, Ohio. He is responsible for the release of all classified and unclassified - controlled data to Foreign Governments, International organizations and commercial contractors. Release action is effected primarily under Foreign Military Sales, Bilateral and International Agreements, Technical Cooperative Programs, and Export Licenses. He also administers the program for all foreign visitors.

Mr. Behr joined AFSC/ASD in 1971 and his past experience includes extensive work in the field of Intelligence Collection (HUMINT) both from CONUS and overseas with the U.S. Army and U.S. Air Force from 1948 to 1970.

Billy W. Campbell

Mr. Campbell is Supervisor of the Company Technical Document Center at Hughes Aircraft Company, Culver City, California. He is responsible for supervising the entry of all Hughes documents into a completely automated information retrieval program; microficheing of Hughes documents; and the acquisition and servicing of technical documents for the Hughes technical community.

Mr. Campbell has twenty-two years experience in reference, cataloging, films, acquisitions, serials, periodicals, and government documents at the libraries of the University of California, Berkeley, the Library of Hawaii, Honolulu, Los Angeles State College, San Fernando Valley State College, and Hughes Aircraft Company.

Mr. Campbell has been a member at times of various library associations and is presently active in the Los Angeles Regional Technical Information Users Council. His publications include, "A Successful Microfiche Program," "Microforms in Special Libraries," and (with others), "A Microfilm Card Catalog at Work."

James H. Carmichall

Mr. Carmichall is employed as an Industrial Security Specialist for the Defense Contracts Administrative Services Region in Los Angeles. He joined DCASR in 1968 and was assigned in Phoenix and San Diego prior to transferring to Los Angeles in 1973 where he was the Education and Training Specialist. He has recently been transferred to the Operations Division of the Directorate of Industrial Security.

Mr. Carmichall received a B.S. degree in Public Administration from Long Beach State and performed graduate work at the University of San Diego. He is a member of the Pi Sigma Alpha (National Political Science Honor Society).

Joe Ann Clifton

Ms. Clifton is employed as Manager, Technical Libraries for Litton Industries and is responsible for the functions of ordering, cataloging, distribution and maintenance of classified technical reference materials. She has been with Litton for 22 years.

Ms. Clifton is a National Councilor for the American Society for Information Science, President of the Southern California Chapter of the Special Libraries Assoc. and Chairman of the Los Angeles Regional Technical Information Users Council (LARTIUC).

She has written and presented numerous papers in her field and is coeditor of a book entitled "Computers in Information Data Centers" which has been published by AFIPS Press.

A.A. Correia

Mr. Correia, in performing the functions of Information Control, Public Relations Office, Rockwell International Corporation, Electronics Operations, provides a system for meeting customer regulations and company policies for controlling the release of technical and/or product information in support of business operations. He is responsible for the screening of business proposals for responsiveness, coherence, technical quality, security and other characteristics that reflect the company image to the customers. He also reviews technical papers submitted for public release or presentation at symposiums/seminars.

Carol D. Finney

Ms. Carol D. Finney, Physical Scientist, is employed by the Defense Documentation Center (DDC), as project officer for the On-Line Service Facility being operated at the Defense Contract Administration Services Region (DCASR). She is responsible for coordinating scheduling requirements of the terminal site, developing and performing search strategies to satisfy user requests for data. During the past eight years she has been engaged in analysis and retrieval of technical and management information.

Ms. Finney graduated cum laude from the University of Pittsburgh, where she received a Bachelor of Science degree. Her major undergraduate studies were chemistry and mathematics. In addition, she attended the University of Pittsburgh School of Medicine for two years. In subsequent years, she has studied various courses related to computer languages and advanced mathematics.

Former positions she has held within the Federal Government were associated with biochemistry/research at the Medicine Branch of the National Institute of Health, at the Department of Health, Education, and Welfare.

Robert E. Green

Mr. Green is Chief, Industrial Security Programs Division, Executive Directorate, Industrial Security, DCAS, Cameron Station, Alexandria, Virginia. He is responsible for development and promulgation of DISP policy and regulations implemented through publication of the ISM, ISR, Industrial Security Letter and Industrial Security Bulletin. He exercises technical guidance over the Defense Industrial Security Education Program, and the Directorates of Industrial Security at DCAS Regional level.

Prior to joining DCAS, Mr. Green spent 23 years in the Department of the Navy Security Program as Security Officer, Classification Manager at several commands, and finally as Director of Security Programs, Headquarters, Naval Material Command.

He has been active in NCMS since 1966 and is a frequent speaker at the national seminars. He is a former Chairman of the NCMS Washington Chapter.

Ms. Marilyn Griffin

Ms. Griffin is employed as Security Specialist/ Security Classification Manager for the Naval Coastal Systems Laboratory in Panama City, Florida, where she has been employed since 1967. She is responsible for classification management, industrial security visitor control and security orientation, education and training programs. Additionally she is responsible for the civilian personnel security investigation and clearance process, and foreign disclosure recommendations to CNO for visits by foreign nationals, documentation requested by foreign governments, and requests for authority for Laboratory personnel to disclose information to foreign government representatives.

Ms. Griffin is a member of The National Secretaries Association (International) having held chairmanships on the state level and offices through president on the chapter level. She is a Certified Professional Secretary having attained this rating in

1970 through a two-day comprehensive examination on environmental relationships, business and public policy, the economics of management, financial analysis and the mathematics of business, communications and decision making, and office procedures.

Ms. Griffin attended Western Illinois State College in Macomb, Illinois, and Gulf Coast Community College in Panama City, Florida; has completed the Industrial Security Orientation course, the Basic Industrial Security course, and the Information Security Management course.

Elizabeth Heinbuch

Ms. Heinbuch is Assistant Security Manager for the Office of the Deputy Chief of Staff for Research, Development and Acquisition, U.S. Army, where she has been employed since 1956. She shares the responsibility for all security functions performed at the Army Staff level including initiating, planning, developing, and directing the security program for information security, physical security, document control and accountability, and personnel security.

Ms. Heinbuch served as Personnel Security Specialist for the Office of the Assistant Chief of Staff for Intelligence from 1951 to 1956. She has been a member of the Washington Chapter of NCMS for the past four years and has served that Chapter as Secretary for three years.

James H. Hoyle

Mr. Hoyle is employed as General Engineer for the Lance Project Office, U.S. Army Missile Command, Redstone Arsenal, Alabama, where he serves as Security Classification Manager, Data Management Officer and Emergency Action Officer. He is responsible for preparation of the Lance Security Classification Guide and DD Forms 254.

Mr. Hoyle is a Registered Professional Engineer in Alabama and Mississippi and is listed in "Personalities of the South"; "Who's Who in the South and Southwest"; "Dictionary of International Biography"; and "Two Thousand Men of Achievement" publications.

Fred A. Koether

Mr. Koether is the Technical Information Officer for the Defense Advanced Research Projects Agency (DARPA) where he has been employed since 1960. His duties include responsibility for carrying out the requirements of five (5) major DOD programs for DARPA relating to the flow of classified and unclassified scientific and technical information and intelligence. These are: (1) The DOD technical Information Program; (2) the Defense Industrial Security Program; (3) the DOD Information Security Program; (4) the Foreign Disclosure Program; and (5) the Freedom of Information Program.

Mr. Koether's previous employment included the Institute for Defense Analyses (1958-1960); the Ramo Wooldridge Corp. (1955-1958); Department of the Army, White Sands Missile Range, N.M. (1951-1955); Department of the Navy, Naval Air Missile Test Center, Pt. Mugu, CA (1946-1951). He served with the U.S. Army from 1944 to 1946.

Mr. Koether has been a member of NCMS since 1965, a member of AIAA since 1952, and a member of World Future Society since 1968.

Philip Kerby

Mr. Kerby is a member of the editorial board for the LOS ANGELES TIMES and won the Pulitzer Prize for his series of editorials on Secrecy In Government in 1976.

Mr. Kerby is a longtime resident of the Los Angeles area and has an extensive background in communications. He was formerly editor of FRONTIER magazine (1946-1949), editor of THE NATION (1967-1971), editor of the ROCKY MOUNTAIN LIFE (1948), news editor for Station KGHF (1947), rewrite desk for the DENVER POST (1942-1945) and reporter/editorial writer for the PUEBLO COLORDAO STAR-JOURNAL-CHIEFTAN (1931-1942).

Mr. Kerby attended Harvard University on a grant from the Ford Fund for adult education fellowship during the 1957-1958 academic year and studies constitutional law and received the Denver press club award for outstanding radio journalist in Colorado in 1947.

Anthony V. Krochalis

Mr. Krochalis is the Inspector General and Special Assistant to the Commander for Freedom of Information and Privacy Act matters for the Naval Intelligence Command where he has been employed since 1967. From 1964 to 1967 he served as Branch Chief and Technical Advisor, Naval Material Production Division for the Defense Intelligence Agency. He also served as an Intelligence Analyst for the Office of Naval Intelligence from 1951 to 1963 and as Ensign, USNR, Pacific Fleet, from 1945 to 1946.

Mr. Krochalis received his B.A. degree in Geography from Clark University in 1958 and his M.A. degree in Geography from Boston University in 1958. He attended the U.S. Naval War College, Newport, Rhode Island in 1963 and 1964 and the Naval Postgraduate School in Monterey, California, in 1974.

Mr. Krochalis received eight outstanding performance awards (1961 - 1975), the Navy Superior Civilian Service Award (1971) and the Secretary of the Navy Human Goals Award (1975). Unclassified publications by Mr. Krochalis include his Masters Degree thesis entitled "Hopedale, a One Industry Community" and a U.S. Naval War College paper entitled "A Strategic Requirement for a U.S. Naval Capability in the Indian Ocean".

Dr. Howard Laitin

Dr. Laitin is on the Senior Technical Staff of Hughes Aircraft Company where he serves as Manager of Systems Analysis for Missile Systems Group. He is an Adjunct Professor of Engineering at USC, and has served as an advisor to various Federal agencies, such as the U.S. General Accounting Office, the Department of Transportation and the National Science Foundation. Dr. Laitin also served as Chairman of two California State Councils and as the Public Member of several Los Angeles County committees concerned with the environment and energy.

Previously, Dr. Laitin was at the Rand Corporation and was Project Officer for Nuclear Warfare and Casualty Studies for the U.S. Army.

Dr. Laitin received his Ph.D. from Harvard. His fields were Economics, Statistics and Preventive Medicine. He is the author of more than 80 reports, monographs and articles in the fields of military operations, public health and business management.

Mr. Frank Larsen

Mr. Larsen is Head, Security Review and Classification Section for the Chief of Naval Operations, Washington, D.C. He is responsible for developing and promulgating policies, plans and programs and procedures for the protection and control of classified information within the Department of the Navy; develops and promulgates security classification guidance; and, provides final security review for all Navy information prepared for open publication.

Mr. Larsen served as Security Director for the Bureau of Naval Weapons and was Chief, Office of Industrial Security, DCAS/DSA while on active duty in the U.S. Navy. Prior to assuming his present assignment, he spent over six years in industry in security program management and engineering support.

Mr. Larsen is a member of the Board of Directors for NCMS, member of ASIS, American Federation of Police and Toastmasters International. He is a former Naval Aviator, Captain USN; and a U.S. Naval War College graduate.

James H. Mathena

Mr. Mathena is employed by Martin Marietta Corporation, Orlando, Florida, as Security Specialist responsible for the supervision and coordination of the Classified Document Control Program. Additional responsibilities include personnel security, security education and administration, and investigations.

Mr. Mathena holds an A.S. degree in Private and Industrial Security from Valencia College, Orlando, Florida. He is currently attending Rollins College on a B.S. degree program in Business Administration.

He has been a member of the National Classification Management Society since 1972 and is a member of the American Society for Industrial Security. He is the Public Relations Chairman of the Greater Orlando Chapter, ASIS, and editor of the Chapter Newsletter.

George W. Paseur

Mr. Paseur is Security Specialist, Classification and Safeguarding Branch, Information Security Division, Headquarters USAF, Washington, D.C. He is the Nuclear Weapons Classification Specialist for the AF and works very closely with ERDA.

Mr. Paseur joined Headquarters USAF in September of 1972. From 1967 to 1972 he was the Chief, Information Security Division, Headquarters USAF, Europe. From 1958 through 1966 he was with the Army Missile Command, Redstone Arsenal, where he served as Chairman of the Classification Committee from 1961 through 1966.

Colonel Jack G. Pruett, USA

Colonel Jack G. Pruett, USA, is the Executive Director of Industrial Security, Contract Administration Services, Defense Supply Agency. In this position he directs the activities of a nationwide team of specialists responsible for assuring that Department of Defense contractors are properly safeguarding classified information. In addition, this Directorate administers the Defense Industrial Facilities Protection Program and an inspection program of contractors possessing conventional arms, ammunition and explosives in conjunction with Defense contract work.

Prior to being appointed to his current assignment in August 1975, Colonel Pruett was the principal advisor on safety and security to the Commander of the Military Traffic Management Command which operates activities at some 20 installations, terminals and ports.

He began his military career as an enlisted man serving with the 82nd Airborne Division during World War II. Subsequently, he was commissioned and has held a variety of Military Police, Criminal Investigation and Provost Marshal assignments in Europe, Japan, Vietnam, Korea and the United States. He is a graduate of the Army Command and General Staff College and has attended the Officers' Associate Advanced Courses at the Provost Marshal General's School and the Armor School, Fort Knox, Kentucky.

Dean C. Richardson

Mr. Richardson is employed as Manager, Military Security, Texas Instruments Incorporated. Dean graduated from the University of Maryland with a BA degree in Political Science. He commenced his Naval career as an aviation cadet in 1942, retiring as a Commander in 1967. In 1963 he was re-assigned Stateside as the Director, Classification Management, Bureau of Naval Weapons. In 1965 he was assigned Senior Staff Assistant to the Chief, Office of Industrial Security, Department of Defense, where he had planning and program responsibility for the international aspects of Department of Defense Industrial Security Program.

Mr. Richardson joined Texas Instruments in 1967. He has been National Committee Chairman, Classification Management Committee of ASIS; a representative to the Security Subcommittee, NSIA, since 1969; a member of the National Classification Management Society since 1965 and Director since 1971.

Mr. Richardson's articles on Classification Management have been published in various magazines including the Department of Defense Cost Reduction Journal, the ASIS Security Management magazine and the NCMS Journal.

Arthur F. Van Cook

Mr. Van Cook is Director for Information Security, Office of Assistant Secretary of Defense (Security Policy). He joined this office as staff assistant in 1964.

Mr. Van Cook retired from the U.S. Army in 1964 after 25 years service. He graduated from U.S. Army Command and General Staff College and attended Maryland University where he majored in military science and tactics, economics and history.

Mr. Van Cook worked with the Rehnquist Committee in development of EO 11652 and chaired the Defense Working Group. In 1967, he developed a new concept for accelerating downgrading and declassification which has been incorporated into the EO 11652. He is currently the Defense member on a National Security Council Working Group re-examining the provision of EO 11652 and its implementing directive. He was recently awarded the Secretary of Defense Meritorious Achievement Medal for his work in Information Security.

Gerald L. Warren

Mr. Warren, Editor of the San Diego Union, was born in Hastings, Nebraska, August 17, 1930, and educated in public schools in Nebraska. He graduated from the University of Nebraska in 1952 with a Bachelor of Arts Degree and a major in journalism and was Editor of the student newspaper, The Daily Nebraskan. He also worked as police and court reporter for the Lincoln Star while in college.

Mr. Warren served as a pilot in the U.S. Navy from July, 1952, until July, 1956, and worked briefly as a reporter for the Mill Valley Record in Mill Valley, California, before joining The San Diego Union in December, 1956, as an editorial trainee. He was reporter, city editor and Assistant Managing Editor during the next 12 years. He also was traveling business representative for Copley News Service in the 1960's for 1½ years.

In January, 1969, Mr. Warren was appointed Deputy Press Secretary to the President, with responsibility for directing the news operation in the White House. During most of 1973 and through August of 1974, he was principal briefing officer. He continued as Deputy Press Secretary during the first year of the Ford Administration with responsibility of maintaining liaison with editors, publishers and broadcasters throughout the nation.

Mr. Warren received the University of Nebraska Alumni Association Distinguished Service Award in 1971.

Robert W. Wells

Mr. Wells was appointed Executive Director, Inter-agency Classification Review Committee in January of 1976. Prior to his appointment he served as Senior Program Analyst for ICRC where he began his employment in August of 1975.

Mr. Wells served as an officer with the U.S. Army (Armor and Military Intelligence) from 1954 to 1975 when he retired as Colonel. He was actively engaged in Classification program while assigned to the ODSAD (SP) where he conducted extensive inspection and review of agency implementation of EO 11652.

Mr. Wells attended Western Kentucky State College from 1947-1949 and graduated from the U.S. Military Academy in 1954.

STATINTL

Information and Privacy Coordinator
Central Intelligence Agency

STATINTL

Mr.  Information and Privacy Coordinator, is employed by the Central Intelligence Agency and is responsible for file search, review and release of information to the public in response to Freedom of Information, Privacy Act and declassification under E.O. 11652 of documents originated by CIA.

For the past 25 years, he has held various administrative, executive and managerial positions within the Central Intelligence Agency.
